Hi Cole,

Hope you are doing well. Spring 2021 (last semester) you had "Problem Solving and Programming I – CS 150" course with me. I recognized you as a hard-working student who performed well in my programming class. Currently I have a grant and would like to provide a one-year stipend opportunity for a student of mine.

If you are interested in the position, please reply to this email ASAP. I conduct an interview session with you and provide more details on the project.

Regards,

Dr. Poursardar
